yes	12k	.96
no	13k	.97

The screenshots show the AMiCA web interface. The top part displays "Experiment Configuration" with fields for project name, experiment name, training data, testing data, features, classifier, and duration. Below this is a "Classification report" table and several charts including "LINE Evaluation 0", "Performance", "Confusion Matrix", and "LINE Evaluation 1". The bottom part shows the AMiCA logo and the text "Automatic Monitoring for Cyberspace Applications".
